

Cook Islands Dining Experience

One of the unique features of travelling to the Cook Islands is that unlike any other country, you are not restricted to dine on the property you stay. We have so many dining options here and we encourage guests to come here and dine out – experience our cuisine and options.

We at the Turama Pacific Travel Group have created our Dining experience program where before you leave home, you have paid for almost all your costs here in the Cooks.

We provide you with 7 options for dining on Aitutaki, where you can take your vouchers in to these restaurants and convert them to food and / or drinks to the value of \$45 per voucher. As our island is small, you are never far away from many of these restaurants or hotels.

On Aitutaki

Our packages include the following
